CAREERS.**

Engineering Design and Drafting Technologist Calgary, AB

Recognized as one of Canada's top employers, Urban Systems is a civil engineering, planning and landscape architecture consulting firm based in Western Canada. We provide exceptional service to local and provincial governments, First Nations and the land development sector. We also provide exceptional career opportunities for our 300 employees located in seven offices throughout British Columbia and Alberta.

At Urban Systems, people matter most. We make significant investments in our people, which is why we take great care to hire only those who we believe will thrive in Urban Systems over the long term. We've become recognized as a workplace of choice by nurturing a unique corporate culture that sets us apart from the rest and provides:

- Challenging and interesting work
- Stable, employee-owned company
- A positive, flexible and supportive work atmosphere
- Collaborative, team based approach
- Ongoing career growth and development
- Meaningful rewards and recognition

About the Opportunity

Continuing demand for the kinds of services that we provide has prompted our search for another talented and motivated practitioner. More specifically, we wish to round out our team in Calgary with a capable and experienced **Engineering Design and Drafting Technologist**. The opportunity will involve varied and extensive project work in all of our practice networks, working alongside seasoned veterans and recent graduates alike.

About You

Our preferred candidate will be a graduate of an Engineering Design and Drafting Technology program, with **up to ten years** general experience in land development, municipal infrastructure design, and/or transportation type projects in a demonstrated design/drafting capacity. In particular, we are looking for the following skills, strengths and interests:

- High proficiency in AutoCAD Civil 3D and other civil design software (required).
- Excellent drafting skills with good knowledge of drawing set-up and production.
- Skilled in Infrastructure Design from concept to detail.
- Proficiency with Microsoft Excel and other Office Software products.
- Excellent communication and writing abilities.
- Ability to produce high quality work under changing circumstances.
- An open mind to design options and a keen eye for detail.
- Ability to work independently and collaborate effectively with others.
- Committed to ongoing personal and professional development.

If this is something that you think you could get excited about, please visit our website for more information and send your resume and covering letter along with a completed Candidate Questionnaire (available for download on our website under "Join Our Team") to careers@urban-systems.com. **Deadline for applications is Friday, August 6th, 2010. Please quote: "Calgary – EDDT" in the subject line of your application.**
