## Municipal Engineer Calgary, AB

Recognized as one of Canada's top employers, Urban Systems is a civil engineering, planning and landscape architecture consulting firm based in Western Canada. We provide exceptional service to local and provincial governments, First Nations and the land development sector. We also provide exceptional career opportunities for our 300 employees located in seven offices throughout British Columbia and Alberta.

At Urban Systems, people matter most. We make significant investments in our people, which is why we take great care to hire only those who we believe will thrive in Urban Systems over the long term. We've become recognized as a workplace of choice by nurturing a unique corporate culture that sets us apart from the rest and provides:

- Challenging and interesting work
- Stable, employee-owned company
- A positive, flexible and supportive work atmosphere
- Collaborative, team based approach
- Ongoing career growth and development
- Meaningful rewards and recognition

### About the Opportunity

Our Calgary branch was established in 1983 and is home to more than 60 technical, professional and administrative staff who serve a diverse client base including various levels of government and private developers. In order to meet the increasing need for the kinds of services that we provide, we are looking to round out our team with an experienced Municipal Engineer (P.Eng).

### About You

Our ideal candidate will have a minimum of five years experience working as a consultant with all levels of government and land developers. We look for people with exceptional communication skills who can work independently and collaborate effectively on diverse, multidisciplinary teams.

If this describes your educational and employment background, we encourage you to consider the following questions to determine whether there is a match with your skills, strengths and interests:

- Are you someone with strong technical skills with a track record of leading teams of professional and technical staff in accomplishing objectives?
- Do you have the ability to convert your ideas into affordable, practical and relevant solutions?
- Do you have the ability to build strong and lasting relationships with co-workers and clients?
- Do you have a demonstrated commitment to delivering high quality and innovative work?
- Are you eligible for registration as a professional engineer with APEGGA?

Please visit our website for more information and send your resume and covering letter along with a completed Candidate Questionnaire (available for download on our website under "Join Our Team") to [careers@urban-systems.com](mailto:careers@urban-systems.com)
