CAREERS.**

Transportation Engineering Technologist Edmonton, AB

Recognized as one of Canada's top employers, Urban Systems is a civil engineering, planning and landscape architecture consulting firm based in Western Canada. We provide exceptional service to local and provincial governments, First Nations and the land development sector. We also provide exceptional career opportunities for our 300 employees located in seven offices throughout British Columbia and Alberta.

At Urban Systems, people matter most. We make significant investments in our people, which is why we take great care to hire only those who we believe will thrive in Urban Systems over the long term. We've become recognized as a workplace of choice by nurturing a unique corporate culture that sets us apart from the rest and provides:

- Challenging and interesting work
- Stable, employee-owned company
- A positive, flexible and supportive work atmosphere
- Collaborative, team based approach
- Ongoing career growth and development
- Meaningful rewards and recognition

About the Opportunity

Continuing demand for the kinds of services that we provide has prompted our search for another talented and motivated practitioner. More specifically, we wish to round out our team in Edmonton with an experienced Transportation Engineering Technologist. The opportunity will involve varied and extensive project work in all of our areas of practice including:

- Urban roadway and highway functional and detailed design,
- Transit facility planning and design, and
- Pedestrian facility planning and design.

About You

Our preferred candidate will be a graduate of a transportation engineering or civil engineering technology program, ideally with a minimum of 5 years experience in a variety of transportation design projects. In addition, we are looking for the following skills, strengths and interests:

- Strong computer skills and a high comfort level with AutoCAD and Civil 3D
- Proficiency with road design software.
- Excellent drafting skills with good knowledge of drawing set-up and production.
- Ability to produce high quality work under changing circumstances.
- An open mind to design options and a keen eye for detail.
- Ability to work independently and collaborate effectively with others.
- Committed to ongoing personal and professional development.

Please visit our website for more information and send your resume and covering letter along with a completed Candidate Questionnaire (available for download on our website under "Join Our Team") to careers@urban-systems.com.

Please quote: "**Edmonton – Transportation Engineering Technologist**" in the subject line of your application.
Deadline for applications is Friday, July 9th, 2010.
